Feed Module/Separation Roller Guidelines for the i600/i700/i1800/i4000/i5000 Series Scanners Consumable Kits

The following table provides a guideline of how often to change the feed module, separation roller, pre-separation pad and tires. Extra tires are provided in the event one is damaged during replacement.

- **Feed module and separation roller tires:** tire life will vary depending upon paper types, environment and cleanliness. Nominal tire life is approximately 500,000 pages; results will vary. Degradation of feeder performance, multiple feeds, stoppages, etc. indicate a need to change tires. Change all tires on the feed module and separation roller at the same time.
- **Feed module and separation roller kit:** it is recommended that you install a new feed module and separation roller approximately every 7th tire change. Install a new feed module and separation roller at the same time.
- **Pre-separation pad:** change each time you change the feed module, separation roller or change the tires.

NOTE: The replacement tires are for use with the feed module and the separation roller (unless using the *Kodak Feeder Kit for Ultra-Lightweight Paper*).
